Peter LONAI

Serial No.: 10/559,929

Filed: May 2, 2007

For: NEURAL STEM CELLS AND
METHODS OF GENERATING
AND UTILIZING SAME

Attorney Docket: **30800**

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

THIRD REQUEST FOR CORRECTED FILING RECEIPT

Sir:

Attached hereto are copies of the Corrected Filing Receipt dated September 19, 2007 and the papers upon which the same was issued.

Please note that the correct filing date of the application is May 2, 2006, as written on the attached official Mail Room Stamp for the Response to Missing Requirements and the USPTO PAIR page, and not May 2, 2007.

Furthermore, please correct the "*Domestic Priority data as claimed by applicant*" as follows:

Domestic Priority data as claimed by applicant

This application is a 371 of PCT/IL04/00489 06/09/2004
which claims benefit of 60/477.364 06/11/2003

Applicant wishes to point out that the International Application Filing Date of PCT Application No. PCT/IL04/00489 has been omitted, i.e. should read "**06/09/2004**" in the "Domestic Priority data as claimed by applicant" section, as written on the attached PCT Publication.

Issuance of a new Corrected Filing Receipt to reflect the correct filing date and priority data is respectfully requested.

This is a Third Request for Corrected Filing Receipt.

Respectfully submitted,

Martin D. Moynihan

Martin D. Moynihan

SECOND REQUEST FOR CORRECTED FILING RECEIPT

Sir:

Attached hereto are copies of the Filing Receipt dated October 29, 2007 and the papers upon which the same was issued.

Please note that the correct filing date of the application is **May 2, 2006**, as written on the attached official Mail Room Stamp for the Response to Missing Requirements, and not **May 2, 2007**.

Furthermore, please correct the "*Domestic Priority data as claimed by applicant*" as follows:

Domestic Priority data as claimed by applicant

This application is a 371 of PCT/IL04/00489 **06/09/2004**
which claims benefit of 60/477,364 06/11/2003

Applicants wish to point out that the International Application Filing Date of PCT Application No. PCT/IL04/00489 has been omitted, i.e. should read "**06/09/2004**" in the "Domestic Priority data as claimed by applicant" section, as written on the attached Preliminary Amendment.

Furthermore, it is unclear why the Filing Receipt dated October 29, 2007 states that the data provided is "not consistent" with USPTO records. According to the "Parent Continuity Data" found on the USPTO PAIR Page (attached hereto), the records provided

are indeed consistent with those of the USPTO. Please correct to remove all references of this inconsistency. If the USPTO maintains this inconsistency still exists, please provide information explaining the nature of this discrepancy.

Issuance of a Corrected Filing Receipt to reflect the correct filing date and correct priority data is respectfully requested.

This is a Second Request for Corrected Filing Receipt.

Respectfully submitted,

Martin D. Moynihan
Registration No. 40,338

Date: September 4, 2008

CORRECTED FILING RECEIPT

OC000000032170251

Date Mailed: 09/19/2008

Receipt is acknowledged of this non-provisional patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please submit a written request for a Filing Receipt Correction. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
